

## Tunnel Entries / Underpasses

The left column contains the information for the right block of 10 to appear in the status window by use. It means:

- Hotkey Enables the block of 10 assigned to the hotkey in the status window
- <+> Digit Digit describes how often <F7> must be hold

Example: **B** +2 9 => key sequence <B><F7><F7><9>

The entry No. 209 and the associated ramp will be built into your BAHN-layout.

	0	1	2	3	4	5	6	7	8	9	
<b>B</b>	204	203	207	201			200	206	202	205	Entries 0° - 45° - 90°
<b>B</b> <b>+1</b>	218	211	210	219			222	215	214	223	Entries 22,5°
<b>B</b> <b>+2</b>	221	212	213	220			208	217	216	209	Entries 67,5°

### Ramps

<b>B</b> <b>+3</b>										Ramps 0° - 45° - 90°
<b>B</b> <b>+4</b>									Ramps 22,5°	
<b>B</b> <b>+5</b>									Ramps 67,5°	

The upper table shows a selection of the 24 tunnel entries, including the ramps.

For each direction there are 5 variants in which the black-yellow bars are placed at different angles to the direction of travel - they are listed in the following table in the left list.

Right of the table is completed the list of all variants that correspond to the geometry of the black-yellow bar. This list may, if necessary to serve as a template for user-defined driveways.
